RP350x Mobile Card Reader

Combination MSR / SCR for EMV Chip & Signature

The RP350x represents the latest innovation in secure mobile card reader technology from ROAM. Combining both magnetic stripe and chip card reader technology into a lightweight form factor, the RP350x is the first in a series of EMV card readers designed specifically for mobile card acceptance.

- ☑ Mobile EMV Chip & Signature solution
- ☑ Compatible with iOS and Android™ mobile devices
- ☑ End-to-end encryption upon card read
- ☑ Comprehensive range of custom branding options

Innovative Features

- EMV Level 1 & 2, PCI PTS 3.1 and SRED certified
- Swipe (3 track) and Chip (EMV L1/L2) card readers in one unit
- Audio jack connector with proprietary audio protocol interface
- Micro USB port for PC and power connection
- Integrated extended life rechargeable battery
- LED indicators for battery and reader status
